

Defence Technology as a Service (DefTaaS)

WHO WE ARE:

Trusted capability.

Delivered at pace.

MTX embeds real
engineering power,
allowing you to move
fast.

- Sovereign, IP-neutral, work-for-hire delivery for government, primes & subcontractors
- We own delivery and assume technical risk
- From tactical AI to full synthetic training, we deliver fieldable outcomes
- Avoid growing fixed headcount — deploy trusted surge capacity on demand

WHAT WE DO:

MTX Solutions is a **matrix** organization.

Verticals (Expertise)

- Technical Consultancy
Strategy, Capability Test and Eval,...
- Software Engineering
AI, Spatial Computing, Simulation, Training Modules,...
- Embedded Systems
Edge AI, Secure Firmware,...
- Modelling and Simulation
3D Visualisation, XR, Real Time...

Horizontals (Delivery)

- MTX Core Team
Sovereign, Internal, Persistent
- Onshore Network
Subject Matter Expertise
- Nearshore/Offshore Options
Cost effective for non-sensitive work
- Strategic Partner Ecosystem
BFO Systems | BFO Next | SwiftWorks

You don't need to
grow fixed
headcount (**cost**) to
gain momentum.

WHY MTX SOLUTIONS? The DefTaaS Model

REAL-WORLD SOLUTIONS:

Fast-cycle prototyping from tactical edge to high-fidelity simulation. Deployed.

SECURE, TRUSTED EXPERTS:

Sovereign-aligned delivery teams embedded into your mission.

IP NEUTRAL:

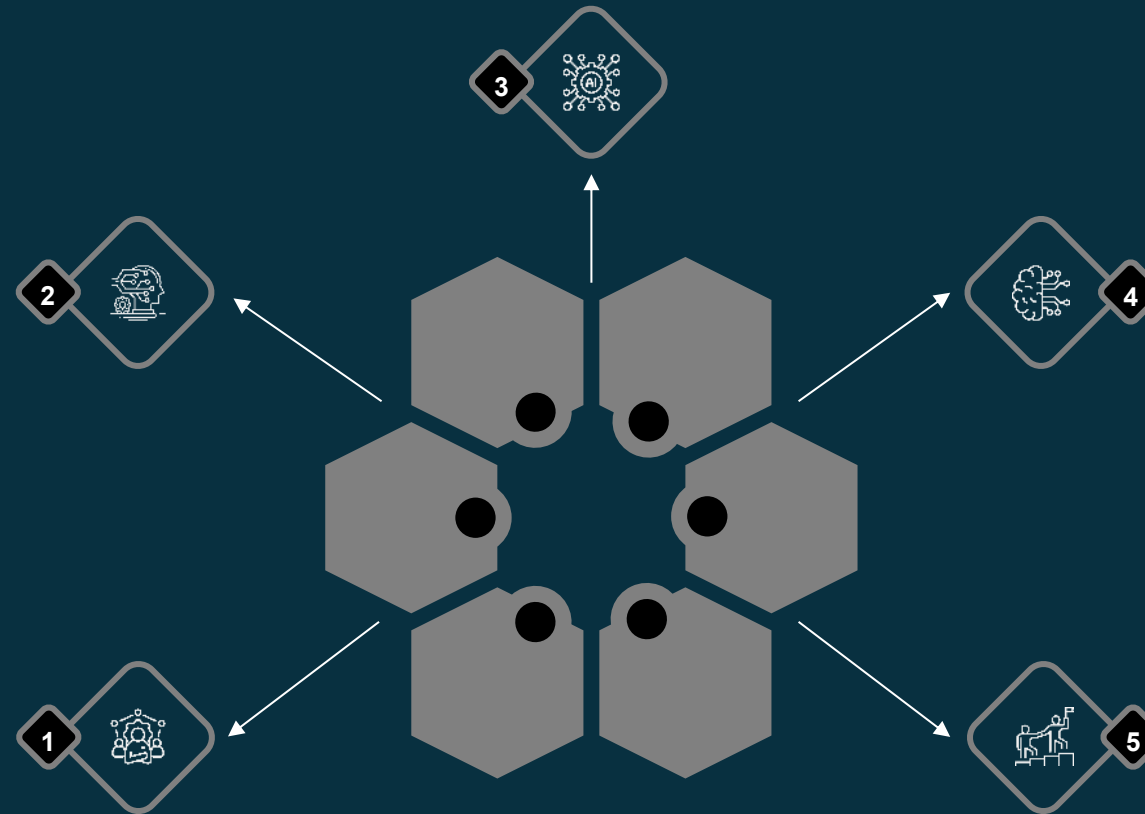

Work-for-hire model with client-owned IP.

SKILLS FROM ADJACENCIES:

Proven methods adapted from gaming, spatial, and AI domains.

MEASURABLE OUTCOMES:

Reduced friction. De-risked delivery. Fieldable innovation.
